

Product Specification Sheet

Dry+ Heavy Absorbent Dry Wipes
90 Wipes/Bag · 12 Bags/Case

Product Overview

Item No.: MWIP121253ES

Essential Cares Dry+ Wipes provide a generous 12" × 12" wiping surface in a convenient dry format designed for healthcare, patient-care, and institutional environments.

The substantial wipe size provides useful coverage for routine wiping and personal-care applications while the bulk case configuration supports efficient stocking and distribution. Dry+ wipes are supplied dry, allowing facilities to use them as appropriate for their established care and cleaning protocols.

Key Features

Heavy Absorbency:
Designed to provide dependable absorption for routine patient-care and institutional wiping applications.

Generous 12" × 12" Size:
Large square format provides broad surface coverage and comfortable handling.

Dry Format:
Supplied completely dry for flexible use according to facility protocols and application requirements.

Institutional Packaging:
90 wipes per bag and 12 bags per case provide 1,080 wipes per case for efficient inventory management.

Extended Shelf Life:
Three-year shelf life supports centralized purchasing and long-term supply planning.

Applications

- Patient-care and personal-cleansing applications
- Hospitals and healthcare facilities
- Dialysis and outpatient treatment environments
- Long-term care and skilled nursing facilities
- Correctional and institutional healthcare
- General-purpose institutional wiping
- Patient-care kits and supply carts

Storage & Handling

- Store in a clean, dry location at room temperature.
- Keep in original packaging until ready for use.
- Protect from excessive moisture, heat, sunlight, dust, and contamination.
- Do not use if packaging is damaged or contaminated.
- Follow facility procedures for use and disposal.
