Technical Specifications

Feature	Detail
Item Number	MINS111N001ES
Model	111-N001
Size	5-inch Professional Design
Jaw Type	Precision Straight Jaws
Spring Type	Double Spring Mechanism
Material	High-Quality Stainless Steel
Finish	Polished, Corrosion-Resistant
Sterility	Sterile
Packaging	1 each per pack (1ea/Pk)
Weight	65g (approx.)
Handle Design	Ergonomic, Non-slip Grip
Cleaning Compatibility	Autoclavable and Chemical Disinfectant Safe

Key Features

- **Precision Cutting:** Straight jaws ensure clean, controlled trimming of thick or ingrown nails.
- **Ergonomic Efficiency:** Double-spring mechanism provides smooth tension, reducing hand fatigue during repeated use.
- **Superior Durability:** Premium stainless steel construction ensures long-lasting performance and resistance to corrosion.
- **Safety & Hygiene:** Individually sterile-packed to meet infection control standards.
- **Controlled Handling:** Compact 5-inch frame allows for precise maneuverability in clinical or grooming environments.

Applications

- Correctional Facility Medical Units
- Institutional Healthcare Settings
- Supervised Grooming & Podiatry Programs
- Long-term Care Facilities

Compliance and Standards

- Manufactured under ISO 13485 Quality Management
- System Complies with CE and FDA medical device standards
- Meets institutional hygiene and sterilization requirements
